A high grade infill drilling porphyry gold-copper investment in Montana’s prolific porphyry camp

Investment Highlights

- **Exceptional asset with significant grades** – Mill settlement grades of 25% Cu and 17.8 grams per tonne Au from 13,242 tonnes; including 2,429 tonnes of 35% Cu + 1,372 tonnes of 23 gpt Au.

- **Bonanza grades drilled underground** UG17-05: 24.5 grams per tonne Au + 0.39% Cu over 30.18 m incl. 68.08 gpt Au + 0.276% Cu over 4.57 m and above it, 82.8 gpt Au + 0.366% Cu over 2.57 m. Hole UG17-06: 41.648 gpt Au + 0.38% Cu over 10.97 m, including 51.84 gpt Au + 0.271% Cu over 4.57 m.

- **Latite porphyry discovered** in holes C17-24 and C17-C27. Porphyry body appears to be of significant size with intercepts measuring up to 234 metres, open in all directions.

- **Close to “the Richest Hill,” produced** produced: 23B lbs Cu, 4.9B lbs Zn, 3.7 B lbs of Mn, 715M Oz Ag, 2.9 M Oz Au.

Value Creation Model

<th>ACTION</th>
</tr>
</thead>
<tbody>
<tr>
<td>There has not been a significant new copper mine discovered in nearly 100 years</td>
<td>2,514-acre underexplored Cu-Au porphyry project</td>
<td>Partner with a Major who will drill geophysical, geochemical, porphyry targets</td>
<td>Apply managerial, technical and financial expertise to create an earn-in agreement that adds significant value</td>
</tr>
<tr>
<td>Gold and Copper rebounding from August ’18 bottom</td>
<td>Rehabilitated underground workings</td>
<td>Delineate high probability targets</td>
<td>Finance next round of drilling</td>
</tr>
<tr>
<td>Internal PEA completed showing accessible high grade zones</td>
<td>Vulcan 3-D + Geophysics</td>
<td>Drill two high grade zones</td>
<td>Extend Madison ore block to meet the Broadway 900</td>
</tr>
</tbody>
</table>

High Growth Potential

- Madison Cu-Au project – Flagship asset
- Montana – Excellent Cu-Au exploration and proven mining environment
- Strong management – Multiple successes
- Technical expertise – Notable discoveries
- Strategically focused – Proven model

Broadway & Madison Mines – The historic Broadway Mine is credited with over USD$1 million of gold production, half of which was from 30,000 tons of ore mined prior to 1880 (0.8 OPT Au).

Strong leadership with demonstrated track record of securing early stage undervalued assets.

Experience of technical team, led by geologist Philip Mulholland, includes similar deposit mining.

Excellent access and infrastructure – The Madison mine is rehabilitated to the 600 level, has electricity, all weather roads, and an available supply of contract miners/truckers/mills.

Mined to a depth of <750 feet, all mineralized bodies remain open at depth.

Mined along the contact zone, 750 feet, the contact remains undrilled for approx. 8,750 feet.
